

### What kind of budget do I need?

In Germany, education is funded by the state, leading most universities to charge no tuition fees. As a result, virtually every student benefits from some form of scholarship! However, you will need to pay a semester contribution ranging from Euro 100 to 350, depending upon the university and the services or benefits provided. For certain special courses you may need to pay higher fees. Apart from the semester contribution, you will require about Euro 900 - 1000 per month for housing, food, clothing, study material, and other expenses such as health insurance and leisure activities. This amount can vary from city to city, and depends on your lifestyle!

### Are there any scholarships available?

Funding in Germany is available mainly for research, and in some cases at the Master level. Visit [www.daad.in/scholarship](http://www.daad.in/scholarship) for an overview of DAAD scholarship programmes. A database of scholarships offered by various German organisations can be found at [www.funding-guide.de](http://www.funding-guide.de).

### Where can I learn more about students' experience in Germany?

To know more about student life or read what international students have to say about Germany, check out the [DAAD Young Ambassadors page](#) and [video gallery](#) and [www.study-in-germany.de](http://www.study-in-germany.de)

### How can I find the right course and university?

What are your interests? Which degree are you aiming for? What language do you prefer to study in? Visit [www.myguide.de](http://www.myguide.de) to get answers and find the perfect course and German university!

### Can I work in Germany?

As an international student, you are permitted to work for 140 full days or 280 half days in a year. This will help you in getting a bit of extra pocket-money!

Germany has always been well known for its very strong industry academia linkage. During your studies you can get the opportunity to do internships with German companies, which can open new vistas for your career.

After completing your degree in Germany, you can stay on in the country for up to 18 months to look for a job that is in keeping with your qualification. Once you find a job, you will be issued a work permit that allows you to take up gainful employment.

Every year, thousands of international students and scholars choose to study in Germany. There are very good reasons for this – International Programmes taught in English medium, excellent quality of education, low or no tuition fee, promising career opportunities and above all a vibrant social and cultural milieu.

With over 400 universities offering a wide variety of courses in various disciplines to over 2.9 million students including close to 470,000 students from abroad, Germany is all set to give a headstart to your career.

### How do I choose a university in Germany?

There are various types of universities in Germany. A majority of these belong to either of the following categories:

Universities and Technical Universities (TU) are research oriented and offer a wide variety of subjects. These can award doctoral degrees.

Universities of Applied Sciences (FH/HAW) are practice oriented and offer courses mainly in engineering, business administration, social sciences and design. These institutions do not award doctoral degrees; however, a master degree holder from a Fachhochschule, one is in principle eligible to apply for a PhD at a university.

Your interest and inclination should define which of the two kinds of institutions you choose!

### Is there a ranking of universities in Germany?

Germany offers a multidimensional ranking, considering various criteria that are important from a student's perspective. For example, student and staff judgment on quality of teaching, atmosphere at the university, library and other equipment, student numbers, average study duration, number of graduations, third party funding etc. You can get a comprehensive overview of each university on [www.university-ranking.de](http://www.university-ranking.de)

### Are Master programmes taught in English medium?

German universities offer numerous Master programmes in English medium.

The website [www.daad.de/international-programmes](http://www.daad.de/international-programmes) gives information about study programmes offered with English as the sole or primary medium of instruction. A comprehensive database of all study programmes, in both German and English, is available on [www.study-in-germany.de](http://www.study-in-germany.de).

### Do I need to know German?

Being a student in Germany, your life will not be limited to the university campus. You will surely want to interact with people, do your internships, travel and make the most of your time there. This is where knowledge of German will present a great advantage!

Universities offer beginner and advanced level courses where you can learn German. You can also start learning the language while you are still in your home country at a Goethe-Institut (Max Mueller Bhavan) / Goethe-Zentrum.

### Am I eligible to apply for a Master degree course?

German universities are autonomous and have their own criteria for admitting students. Please check the university website and the specific programme you are interested in to find out the exact admission requirements.

As a four-year Bachelor degree holder from Bhutan, India or Nepal, you are eligible to apply for a Master programme. In case you have a three-year Bachelor degree, do get in touch with the course coordinator or the International Office of the selected university.

Most universities will ask for your scores in English language proficiency tests such as TOEFL (98-100 iBT) and IELTS (6.5 band). Additionally, GRE/GATE/GMAT scores and work experience may be required, depending on the subject you choose to study. For example, GMAT score may be required for management, economics and law programmes. Universities will require strong German language skills in case you want to take up a programme in German medium. In such case, your knowledge of German must be certified through examinations such as the TestDaF or DSH.

### How do I apply?

It is advisable to start your preparations about a year in advance.

#### Step 1

Collect information from the DAAD, internet and other sources. Attend DAAD information sessions. Details about our events/ sessions are available on [www.daad.in/events](http://www.daad.in/events).

#### Step 2

Contact the selected university. This will be your most important source of information about eligibility, course duration, fee, application procedure etc. Study programmes may have winter semester (October – March) or summer semester (April – September) intakes. Check the application deadline.

The Academic Evaluation Centre (APS India) which is a part of the German Embassy, performs document verification and issues a certificate which is a prerequisite for the student visa application. Please check [www.aps-india.de](http://www.aps-india.de) for more information.

#### Step 3

The website of the course / university you have chosen will carry details about application procedure to be followed. Accordingly, send your application either to the university or to uni-assist. Uni-assist is a body that accepts your application, screens it and forwards it to its member universities of your choice against payment. Member universities of uni-assist

often do not entertain direct applications. Please check [www.uni-assist.de](http://www.uni-assist.de) for the list of member universities.

#### Step 4

Apply for a student visa as soon as you have the admission letter, as the procedure can take 8 to 12 weeks. To find out where you should apply for a visa, visit the website of the German Embassy. Proof of funding for the first year of studies is required.

Arrange for accommodation. The International Office may be of help in finding accommodation.

#### Step 5

Arrive in Germany at least a week before your course begins. Contact the International Office of your university for further guidance. Get your residence permit within the first three months of your stay in Germany from the Foreigners' Registration Office.
