ANNOUNCEMENT AND CALL FOR APPLICATIONS

DIES Training Course on “Management of Internationalisation” 2023-24

Leibniz University Hannover, the German Academic Exchange Service (DAAD), and the German Rectors' Conference (HRK) are jointly organising the DIES Training Course “Management of Internationalisation” in cooperation with Universidad Católica San Pablo – UCSP (Arequipa, Peru), Manipal Academy of Higher Education – MAHE (Manipal, India), Jomo Kenyatta University of Agriculture and Technology – JKUAT (Nairobi, Kenya), and Dedan Kimathi University of Technology - DeKUT.

Since 2013 the Training Course is part of the programme Dialogue on Innovative Higher Education Strategies (DIES), which has been jointly coordinated by the DAAD and the HRK (German Rectors' Conference) with financial support from the German Federal Ministry for Economic Cooperation (BMZ). DIES offers a bundle of measures – training courses, dialogue events, projects and partnerships - that foster professionalisation of institutional management processes, alignment of education to international quality standards and strengthening of research capacities.

1. What does the training course want to achieve?

The key objective of the training course is to qualify university staff (either International Office staff or higher education managers responsible for coordinating international activities) from selected countries of Africa, Latin America, and Asia, to manage processes and tasks of internationalisation in the area of higher education. The programme will enable the participants to build up improved and more effective structures and procedures of internationalisation at their home universities. The programme neither aims at universities with an already very developed stage of internationalisation, nor has as a main purpose to provide knowledge for proposal writing for third party funding.

Supported by the

2. Course Content and Methodology

The course is composed of four thematic modules. Each training unit offers a balance between conceptual learning components and practice-oriented training, management skills as well as soft skills.

Module 1 – Internationalisation: Concepts, Systems and Actors	Module 2 – Competences and Key Tasks of an International Office (IO)
<ul style="list-style-type: none"> a) Systems and Processes of Higher Education at National, Regional and Interregional Levels b) Concepts and Implications of Internationalisation c) Internationalisation Strategies 	<ul style="list-style-type: none"> d) Structures and Tasks of an International Office e) Internationalisation of Research f) Internationalisation at Home g) Academic Mobility and Partnerships h) Marketing and Recruitment
Module 3 – Soft Skills	Module 4 – Management Skills
<ul style="list-style-type: none"> a) Intercultural Communication b) Conflict Management 	<ul style="list-style-type: none"> c) Project Management d) Change Management

The programme consists of three workshops and the work on a specific project of internationalisation. Although the first module is mainly conceptually driven, the training course will methodologically focus on the *practical aspects* of internationalisation. Participants will learn about examples of “good practice” from different countries all over the world, and then apply the acquired knowledge to their everyday work in their own universities. Entering into an international dialogue will improve and train their management and intercultural skills, and enhance their awareness and knowledge about developments in internationalisation processes. Moreover, participants will have the opportunity to network and establish partnerships worldwide.

Each participant will develop and work on an **Internationalisation Project** that fits their position and institutional goals. This practice-oriented work will help them to define specific and realistic goals, develop a roadmap, set their own milestones, and to keep record of their tasks. The participants will be continuously advised during the learning process by mentors and colleagues to guarantee the most individual-tailored training. Shortly after their selection, participants will receive preparatory reading and working materials, which provides them with insights into conceptual issues. The literature will also help them to reflect on the individual/institutional status quo and their specific projects.

3. Schedule

The following table shows the dates and venues of the project work and workshops:

Phase	Place	Date
Project work	Home country	until October 2023
1 st Workshop	Hannover	18 th – 27 th October 2023
Project work	Home country	October 2023 – Spring 2024 (project reports every 2 months)
2 nd Workshops (Regional)	Nairobi (participants from Africa)	26 th February - 1 st March 2024
	Arequipa (participants from Latin America)	4 th - 8 th March 2024
	Manipal (participants from Asia)	11 th – 15 th March 2024
Project work	Home country	Spring 2024 – September 2024
3 rd Workshop	Hannover	September 2024
Project work	Home country	September 2024 – November 2024 Final project report due on 10th November 2024

As the workshops of the course are interconnected, participants **must take part in all three workshops and report regularly about their projects between and during the workshops**. An institutional written commitment to fulfil these activities is mandatory (see application and selection procedure).

4. Who can apply? (Selection Criteria, Participants' Profile)

Up to 30 participants from an institution in one of the following countries will be selected:
